Navigate your payments journey

## Business Resource Directory

### YOUR PAYMENT DESTINATION

Whatever your desired destination on your payments journey we have the passport for you.

Wespay is thrilled to bring you our Business Resource Directory, featuring Promote and Partner Passport members. Businesses that join Wespay share our values and bring unique value to other members.

Browse or search this digital directory for providers or consider these vendors for your RFP processes. Use the tags under the company names to easily search for suppliers that meet your needs.

For assistance, contact [memberservices@wespay.org](mailto:memberservices@wespay.org) or (415) 433-1230.

## FRAUDSENTRY

ACHIEVE OVER 95% SUCCESS IN  
PREVENTING CHECK FRAUD

FraudSentry leverages advanced AI and image analysis to effectively detect and prevent check fraud, safeguarding your institution and customers.

By fusing digital image forensics with transactional analysis, FraudSentry offers a robust multi-tiered defense against all forms of check fraud.

### WHY TRUST TAFRAUDSENTRY?

FraudSentry sets a new industry standard by outperforming traditional fraud prevention systems with unmatched precision and efficiency. With a success rate exceeding 95% in specific scenarios, it offers unparalleled accuracy. This efficiency is achieved through continuous learning algorithms that adapt to emerging fraud patterns, ensuring your financial institution stays ahead of fraudulent activities.

### PROVEN RESULTS BACKED BY CUSTOMER SUCCESS

*"FraudSentry has proven to be a valuable tool in our fraud detection suite. By quickly identifying fraudulent checks, FraudSentry has saved our customers and Central State Bank thousands of dollars in the short time we have gone into production. One check alone, has covered our investment in FraudSentry. "*

-Eric Baswell, Central State Bank, Calera, AL

## The Cyberfraud Prevention Platform for Financial Services

Darwinium is a cyberfraud prevention platform that is solving the toughest challenges in account security by providing complete visibility of user behavior across every digital touchpoint.

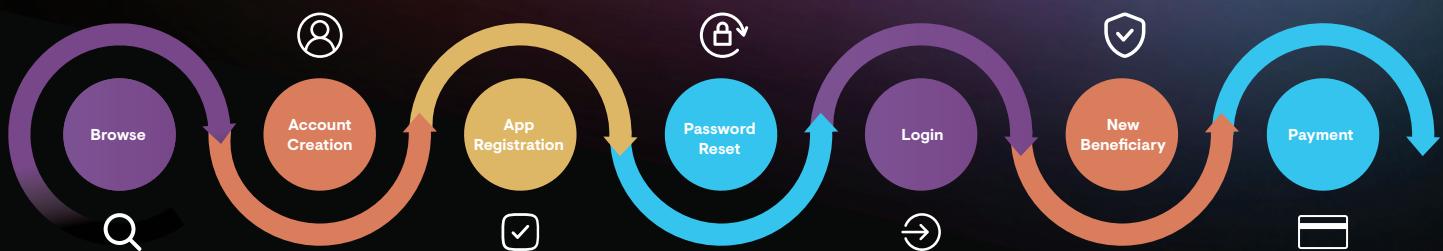

Real-time analytics are combined with the ability to decision and act on intelligence immediately. This provides agility and control to protect end user accounts from complex bots, fraud, scams and abuse, and adapt to evolving threats as they happen.

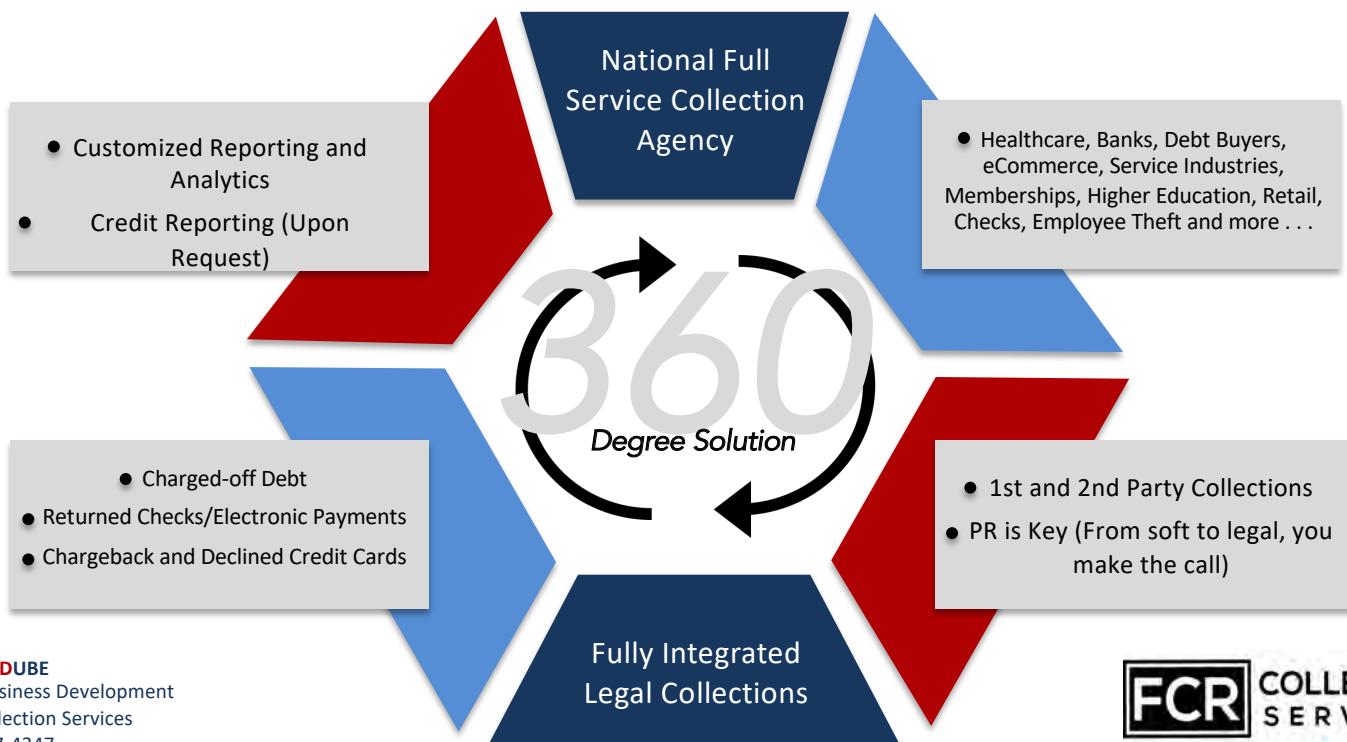

### Use Cases

- Protect new account registration processes
- Identify and block account takeover attempts
- Remediate against authorized push payment (APP) fraud, scams and other payment fraud MOs
- Monitor high-risk touchpoints in the customer journey, such as password resets and adding new beneficiaries

For more information, visit [darwinium.com](http://darwinium.com) or to see a demo drop us a line at: [contact@darwinium.com](mailto:contact@darwinium.com)

Separate trusted and risky behavior across the entire customer journey

# About Wespay

Wespay is a payments association dedicated to building and sharing knowledge to guide members through their payments journey, from concept to operation. We work with financial institutions, third-party payment providers and organizations supplying payment services related to operations and compliance, risk management and fraud, and payments strategy and planning.

Wespay is a center of excellence for operational sound practices and payment systems' requirements. Through awareness, advocacy and knowledge sharing, we empower members to more effectively govern their operating environment and reduce risk exposure across payments channels. Wespay's team of payments experts provides members with a broad industry perspective to develop and implement their payments strategies. Wespay's Payments Hotline and virtual online community provide member support with operational, compliance and risk management questions, and share of industry sound practices.

Wespay, as a Direct Member of Nacha, is a specially recognized and licensed provider of ACH education, publications and support. Representing the interests of member institutions, Wespay is directly engaged in the Nacha rule making process, the Accredited ACH Professional (AAP) Program and the Accredited Payments Risk Professional (APRP). Partnered with ECCHO, Wespay is a designated Educational Partner for the National Check Professional (NCP) accreditation program. Wespay partners with payments systems innovators and current member organizations to deliver timely, accurate and relevant information and services to their constituents.
